section

section

section

section

All sections:

**Same height
Background in center
Background resizes to fit
Same parallax effect**

But individually:

Different background images

```
<section>
  content goes here
</section>
```

```
<section class="highlighted">
  content goes here
</section>
```

```html
<section class="products">
    content goes here
</section>
```

```
<section class="whatever">
content goes here
</section>
```

```html
<section class="products">
    content goes here
</section>
```

```css
section.products {
    style goes here
}
```
